---

One additional note, I don't believe I have modeling files for Exhibit 7. OAQPS would have to provide those files (I think).

Subject: Ameren Files: Did you ever receive Exhibit 15?

Andy,

Thanks very much for following up. I was under the impression that, at least as of last week, only the Docket Center at Headquarters had Ameren's Exhibit 7, Appendix E (provided by USB and external drive, according to [regulations.gov](http://regulations.gov)) and Ameren's Exhibit 15 (provided by hard drive). I spoke with someone there, and they told me to send an email specifying the documents and they'd provide them. When I hadn't received anything yesterday, I followed up and was told that the Docket Center has no way to upload large files, and that they would copy Exhibit 7, Appendix E to a DVD and mail it to me (but it wasn't clear when that would happen; they repeatedly told me that they had 10 days to respond). They were still looking into what to do about Exhibit 15.

I realize that many parties (including Sierra Club) filed extensive exhibits. Ameren's comments and exhibits weren't posted to [regulations.gov](http://regulations.gov) until April 6. When I saw that several of Ameren's exhibits were not accessible on [regulations.gov](http://regulations.gov), I immediately followed up. We are very grateful to Region 7 for providing Exhibits 12-14 and are reviewing them. I don't know how critical the outstanding exhibits are without actually seeing them.

We would be most grateful if Region 7 could provide these exhibits to us if indeed they have them.

Thanks!

Maxine

Subject: Ameren Files: Did you ever receive Exhibit 15?

Hi Maxine,

I'm trying to close the loop on some requests for information.

Did you all ever receive Exhibit 15 "Alpine, WRF Modeling Data – Input Files Provided to EPA in hard drive form on 3/31/2016" as you had requested? It was my initial understanding that the files were hand delivered on hard drive and only accessible via an in person visit to the docket center, but I wasn't sure if Region 7 and Andy Hawkins was somehow able to make this available to you.

Thanks!

Wei-an 'Andy' Chang
